LUXURY TO MEASURE

## ITALIAN STYLE IN THE KITCHEN

Elad Group, in partnership with Silverstein Properties, excellent players in the field of American real estate, have commissioned Scavolini to make 250 high-tech kitchens for One West End, the residential tower between 59th Street and West End Avenue in Manhattan, designed by Pelli Clarke Pelli Architects. The interiors have been designed by the hospitality visionary Jeffrey Beers, with whom the Pesaro-based firm has collaborated to make the exclusive custom kitchens. Refined design, attention to detail and selected materials (walnut, champagne or white opaque glass, steel and marble) go into these high-profile tailor-made kitchens by Scavolini, a brand ambassador of Made in Italy in the world, and a reference point in the contract sector
